

Origin of Things

Searching for and finding the Origin of all things will give us a different prospective of our current existence. It will give more definition to life than what is portrayed. At this time and place, we should have many questions like, why are we here, where did we come from and who built the great Pyramids. What type of technology was used to build such long lasting structures? Do they have astral, spiritual or other types of meanings?

Are we Spiritual or Earthly being? How and where did religion originate? Was Religion made to control us? Why do traditions and rituals exist and do we need them? Why are people so different? Why do people speak so many different languages? Why are certain people on the bottom of the totem pole?

We need to know and understand what we all did prior to slavery and why we behave the way we do Now.

We need to imagine where we would be today, if things were done differently by Us All. What have we allowed to happen? Who are we as a people? Who are we as human beings?

Why does Mother Nature behave the way she does. What are Her causes and effects? Why do the, earth quake, hail fall from the sky, tornadoes spurn, wind blow, sun heat, cold chill, ice freeze, rivers run, oceans flow, rock harden, stone throw, crystals heal, trees breath, dirt mud, grass grow, birds sing, and animals roam?

What's deemed edible and what's not. Why are human beings' teeth flat and most animals' teeth pointed? Should we eat meat or is vegetarianism our intended schism? Have Our thoughts and behavior been influenced negatively? Are we seeing things correctly?

Is the Bible our book or do we need to read more and take a second look? Are We blind, cock eyed, seeing double, missing the point and/or view? Are we being awe

struck by the trivial things in life? Is TV telling us the Truth or a telling a Lying vision?

Are We deaf, dumb, forgetful and or ignorant? Do We need to “re-view”, look back, “re-search” and Investigate Ourstory? Do we need a scientific DNA, Melanin and Electromagnetic checkup?

If we “Re-search” and do a Double-take of the Origin of Things, maybe then our prospective redemption will increase to 144,000,000 instead of the so-called original biblically prophesized 144,000.
